EVENTS
- KUALA LUMPUR -

KL Mobile Events is a corporate event company and an equipment rental company with hundreds of successful events under our belts since 2008. No event too big or small, every event has its own objectives and themes. We listen, share knowledge, guide, and execute events of all kinds for our clients. To us, events and celebrations are all about “that moment”, and our team is trained to make it a great and memorable one.

Celebrating a moment or a milestone could be a once in lifetime opportunity whether it’s Corporate or Private and those moments need to be captured and remembered.

We KL Mobile Events work towards achieving ’’the moment’’ because events are all about **THAT MOMENT**. If you miss it, you can’t rewind it back to fix it.

Our range of quality equipment and professionally trained staff will ensure that your moment is celebrated & it’s a memorable one for you and your guest.

HOW IT WORKS

1. Brief

Our first step is to listen. We do our best to understand your brand or company profile and who your target audience is. We benchmark and analyse your competitors to see what we can do better, so we can uncover a clear picture of what your position is. Our aim is to go on a journey of discovery with you to tailor a strategy that will drive success

2. Creative

We brainstorm for ideas, then develop and discuss them with your requirements in mind, We consider all innovative solutions the world has to offer, both traditional and modern. Together, we will decide what will work best with your time frame and your budget.

3. Plan

We then present a detailed and illustrated proposal complete with a fully itemized budget. Our services include managing all third-party supplier contracts and invoices, from initial deposits to final payments. This minimizes and streamlines the administration on your side.

4. Delivery

Once the plan is finalized, we deliver! We set project milestones, operating to best practice standards while delivering quality products and services. We ensure efficient, effective resource allocation. We perform checks and balances throughout the project life cycle. We report back to you on a regular basis until delivery is complete.

5. Evaluation

Post-event, we debrief together a post-project review, including a written report, lets us assess and evaluate the event. We find it important to identify key learnings, project successes, and future opportunities for improvement. We will also evaluate financial success. This phase of our work is the foundation for future projects.

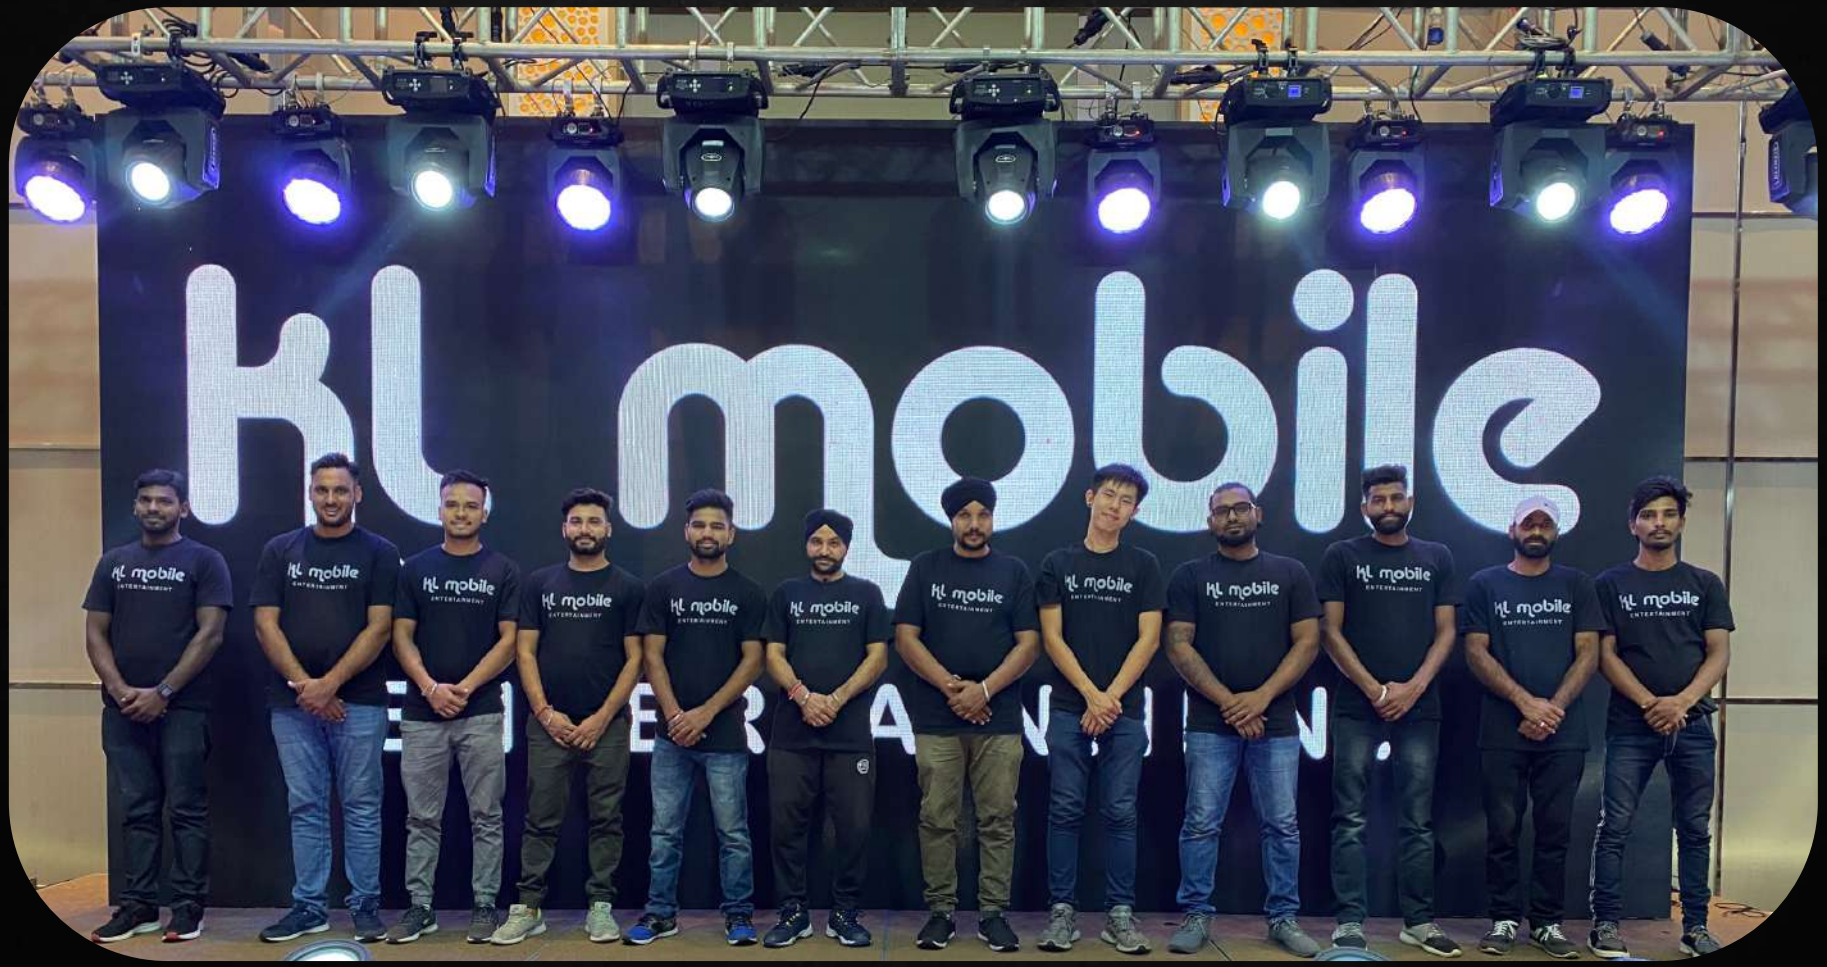
MEET OUR TEAM

ON GROUND TEAM



"Your brand needs to be managed by a team who can add value and take it to greater heights."

Sean De Silva is no stranger to the Malaysian events industry: He has over 20 years of hands-on experience with the planning local and international events.

Having started his career in Corporate Events, Sean has lived up to the expectations of all his clients and delivered unsurpassed performances for many reputable companies in Malaysia, Myanmar, Dubai, Australia, and many other Southeast Asian countries.

His contribution to the event industry has been recognized by reputable universities in Malaysia. He is currently an Industry Advisor for degree students and lecturers in INTI College Malaysia and is a member of their Industry Advisory Board.

When servicing international clients, he believes that the creativity and execution of an event should be unique while still being influenced by local culture. This is where his extensive experiences are useful for performance and for generating the best result within the given timeframe and the budget.

He is also a perfectionist and an avid believer in meeting every expectation the first time around, every time, as events are all about **"that moment"** – an important point in every event that dictates success. Capturing these moments consistently is what Sean strives for in his events.
What started out as a passion in Entertainment has now flourished into a successful business venture. Sean is the founder of KL Mobile Events and founder of Pastel Events & Marketing Sdn. Bhd.

Sean De Silva
Founder & CEO

Having Sean and his team hands at the wheel of your event will give you a peace of mind and will allow you to enjoy **that moment** without stressing about the details.

Event Management skills do not come just only from books, it needs to have an extreme higher-level of PR skills to ensure your clients are trusting on the work that you are capable of delivering. In real words Christie takes care of all client communications and making sure the groundwork is well communicated on the go to achieve client goals.

KL Mobile Events could not have any better partner when Christie showed up to the partnership as he was completely in love with the concept that KL Mobile Events had created and it was the right fit for him to throw his crazy ideas.

Coming from an extreme environment of entertainment and crowd management Christie has no fear to take up any challenges that any client wants. His welcoming smile , dedication and honesty to the industry made his job much easier with the battles that he has to deal with on a regular basis in the event industry.

When everyone is under stress during challenging deliveries Christie's job is to keep the team together and ensure that clients expectations are met at all times.

The Organising committee put a lot of effort and they completely get drained out by looking for solutions when planning an event. Christie and his team take the full responsibility from the client and give full room for the organising committee to have the fun that they deserve during the event.

Hello Sean & James,

On behalf of my team, I would like to sincerely thank you for entertaining my crowd last Friday. We received so many positive feedbacks from other colleagues.
It was a night to remember and having you as our DJ was one of the reason for that. It was a pleasure to be working together with you and your team.

I hope we will be working together again sometime in the future.

Warmest regards,

Client Feedback
To DJ Sean, thank you so very much for in our SGH Summit 2017 held in Avani Se Goldcoast. Awesome feedbacks given by on your fabulous DJ set on our party night and also the AV and lightings support that really captured the ambience of our 3 days Summit. Many thanks too for the advice and recommendations given to us to make the event even more meaningful and impactful. Definitely will recommend KL Mobile DJs for any parties and events of any size in KL or beyond! Hope that you guys enjoy the range and spread of sunglasses on show too. Also giving a shout out for Vishnu and his team who did a wonderful job capturing the moments on stills and videos! The 360 deg shots and drone videography was truly awesome! Well done guys.

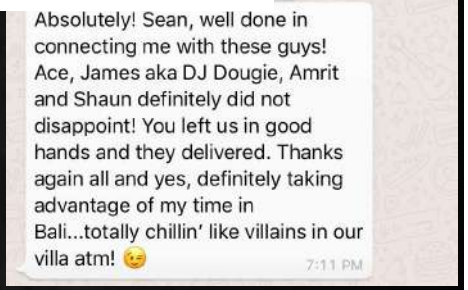
Amazing team, Specially SEAN the tall bald man take charge and execute a super event. Great sound and lighting system and fabrication was looking amazing and DJ was mind blowing .. totally recommend these boys to any event as they drop entertainment bombs.



Absolutely! Sean, well done in connecting me with these guys! Ace, James aka DJ Dougie, Amrit and Shaun definitely did not disappoint! You left us in good hands and they delivered. Thanks again all and yes, definitely taking advantage of my time in Bali...totally chillin' like villains in our villa atm! 7:11 PM

No wonder they are so good as they use all the Top brands of speakers from Italy.
These guys in another level when it comes to sound , lights and event solution in Kuala Lumpur.
Highly recommended.
Owner DJ Sean D is a whackiest DJ in town who will bring the house down when it comes to selection of their their music.

Positive: Professionalism
This is a very professional event outfit. We were very pleased with their attitude and approach to our event in 2019 (pre-Covid19), which was a roaring success because of the attention to detail and budget management that KL Mobile DJs displayed. We wished them all the success and we look forward to more events together with them.
